Just Darts® Dart League

Individual Player Achievement Record Sheet

This sheet will be used to record your team player's weekly earned achievements. It is your record in the event of any discrepancies on score sheets or in the event score sheets are lost. Team Captains are to fill in the name of each teammate and record the earned achievement per match each week. This sheet is to be retained by the Team Captain until after the final standings are received.

NOTE: Player Achievements not submitted on the weekly score sheets will not be calculated. It is the Team Captain's responsibility to complete this section of the score sheet each week. If this section is blank, no credits will be given, however, no penalty will be imposed either for not completing this section other than the loss of the achievement.
